The head of the Supreme Islamic Organization and Khatib of Al-Aqsa mosque, Sheikh Ekrima Sabri has saluted the role being played by the Leader of the World Islamic People's Leadership in supporting his Palestinian brothers in Gaza. He also applauded his continuous concern about the issues of Al-Quds since the onset of Al-Fateh Islamic Revolution.

"I salute the WIPL Leader for his great efforts in supporting his Palestinian brothers in Gaza; this is not strange of the world leader – the conscious of the world, who has paid due attention to Al-Quds since the onset of Al-Fateh Islamic revolution", said Sheikh Ekrima. Sheikh Ekrima Sabri, who made this remark during the closing ceremony of the 5th WIPL general conference on 8th November, also thanked WICS for hosting the conference. He said:"The conference is held to pool the efforts and capacities of the Muslim intellectuals for the service of the Ummah, which makes such a conference a reference to the Muslim world. Because we are in dire need of references and unity. The division of the Umma is a very painful thing" concluded Sheikh Ekrima.
