MAC's Springs of Knowledge – Website

The Springs of Knowledge project has been set up by the Muslim Association of Canada (MAC) to train leaders required to wage the offensive for the Islamization of Canada.

MAC's logo clearly appears on the Home page of the Springs for Knowledge website. The description of the Islamic studies curriculum provided by the site also refers to MAC's role in the conception of the program:

This program is aimed to provide the seeker of knowledge with a basic, yet comprehensive understanding of the Islamic sciences. The program is the fruit of many years of educational development by the Muslim Association of Canada and represents one of its leading milestones. The current program is tailored towards a youth audience from high school to university.

On the FAQs page, it is mentioned that MAC is always looking for volunteers to implement its program.
